Dear Participants,

I would like to welcome you to the fourth Annual Global Cybersecurity Innovation Summit (GCIS). We are honored to have the support of Her Majesty’s Government (HMG) and The United States Department of Homeland Security Science and Technology Directorate (DHS S&T) as we provide a platform for the business of Cybersecurity to take place. In particular, the opportunity for Small and Medium Enterprises to connect with key Government, industry, system integration, investment, academic and International decision makers from the American, British and European Global Cybersecurity markets.

SINET was created to advance innovation and enable global collaboration between the public and private sectors to defeat Cybersecurity threats. Whether you’re a builder, buyer, investor or researcher, there is something for everyone, regardless of where your organization is in its lifecycle. As you attend the sessions and networking gatherings during the next two days, take a moment to look around and meet the leaders in the room who are focused on a mission, have a sense of purpose and are committed to moving the Cybersecurity agenda forward.

Over the last five years I have seen great strides by the British community in their support of the small business community through increased investments, government assistance and growth of more entrepreneurial companies. I am confident that our program will also be able to help advance innovation within the global Cybersecurity market.

I would like to extend a special thank you to HMG and DHS S&T as well as our speakers, sponsors and steering committee who contributed greatly to making the GCIS a success.

Thank you for joining us as we continue to build global communities of interest and trust that support the advancement of innovation as well as the higher calling; the national security and economic interests of our respective countries. Only when we take risk, can we truly alter the world...

Sincerely,

Robert D. Rodriguez
Chairman and Founder
SINET
AGENDA

SEPTEMBER 18-19, 2018
Agenda

Day 1 – Tuesday, September 18, 2018

11:30 AM – 12:30 PM
Registration and Light Sandwiches

12:30 PM – 2:00 PM
General Session
  • BP Lecture Theatre

12:30 PM – 12:35 PM
Introduction Remarks by Summit Host
  • Rick Geritz, Chief Executive Officer & Founder, Life Journey

12:35 PM – 12:45 PM
Opening Remarks
  • Robert D. Rodriguez, Chairman & Founder, SINET

12:45 PM – 1:05 PM
Keynote Address
  Ciaran Martin, Chief Executive Officer, UK National Cyber Security Center

1:05 PM – 1:55 PM
Implementing the GDPR/Breach Notification Directive

Abstract: The General Data Protection Regulation (GDPR) Breach Notification Directive went into effect on May 25, 2018, and the penalties are severe; up to 4% of worldwide turnover or 20 million Euros, whichever is higher. What are the largest impediments to an achieving GDPR compliance and how can innovative solutions improve compliance. How does GDPR support security and security support GDPR today and into the future? How strong will the enforcement of corporations who are not in compliance with this relatively new regulation?

Moderator:
  • Sue Bateman, Deputy, Data Policy and Governance, DCMS

Panelists:
  • Elizabeth Denham, UK Information Commissioner
  • Ben Aung, EVP Chief Information Security Officer, Sage PLC
  • Steve Collins, Chief Information Security Officer, William Hill
  • Chris Somers, Global IT Director, Security Program Operations, The Boston Consulting Group
  • Neil Thacker, Chief Information Security Officer EMEA & Data Protection Officer, Netskope
2:00 PM – 4:40 PM

**Track Sessions**

**BP Lecture Theatre & Stevenson Lecture Theatre**

---

**TRACK 1: 2:00 PM – 2:50 PM**

**BP Lecture Theatre**

**Making Safe Cities Safer Through Robust IoT Processes, Models and Innovative Solutions**

*Abstract:* TBD

*Moderator:* Julian David, Chief Executive Officer, Tech UK

*Panelists:*
- David Alexander, Managing Consultant, PA Consulting Group
- Ric Longenecker, Group Director of Information Security & CISO, Verisure
- A Government Advisor, CPNI
- John Weinschenk, General Manager, Enterprise Network & Application Security, Spirent Communications

---

**TRACK 2: 2:00 PM – 2:50 PM**

**Stevenson Lecture Theatre**

**How to Navigate Selling to the UK & US Governments**

*Abstract:* The United States and United Kingdom governments are two of your target customers, but how do you successfully engage? Do you have an understanding of these government organizations? Do you currently have the right business development employee to lead the way? How and when will your technical team get involved? Do you need to engage in a pilot? The government representatives on this panel will discuss how they successfully engage with industry, and the industry panelists will discuss their experiences and best practices for selling to the US & UK governments.

*Moderator:* Dr. John Zangardi, Chief Information Officer, US Department of Homeland Security

*Panelists:*
- Greg Crabb, Chief Information Security Officer, United States Postal Service
- David Garfield, Chief Executive Officer, Garrison
- Jon Lawrence, Chief Information Security Officer, Justice Digital & Technology
- Nicola Whiting, Chief Strategy Officer, Titania

---

2:50 PM – 3:10 PM

**Break**
TRACK 1: 3:10 PM – 3:55 PM
BP Lecture Theatre

What Will the Future of Cloud Security and MicroSegmentation Look Like?

Abstract: If properly done the future of modern data centers and robust cloud security will enable microsegmentation to allow rules and policies that can be assigned to workloads, VMs, or network connections. This means that only necessary actions and connections are enabled in a workload or application, blocking anything else. With IT running fast to the cloud it will be important to understand which vendors will be embraced to deliver this critical functionality, and how long will enterprises wait before making this effort but also getting this done correctly. Our panel of experts will detail their experience with deploying security and microsegmentation in a virtualized and multi-cloud environment.

Moderator:
• Oliver Newbury, Managing Director, Chief Technology Officer-Security, & Head of Group Cyber Security Assurance and Innovation Centre, Barclays

Panelists:
• Kerin Cosford, Head of Technical Architecture, Ministry of Justice
• Paul Crichard, Security Chief Technology Officer, BT Security
• Barbara Hoffman, VP, Global Strategic Operations, Govt Vertical, Samsung
• Sian John, Cyber Security Advisor, Microsoft and Chair, TechUK’s Cyber Management Committee
• Dr. John Zangardi, Chief Information Officer, US Department of Homeland Security

TRACK 2: 3:10 PM – 3:55 PM
Stevenson Lecture Theatre

A Letter to My CEO On The Impact Of The 3 Billion Chip Enablement From Spectre & Meltdown Exploits

Abstract: We live in a dynamic threat and vulnerability environment. You must assume your security will be compromised at some point. How will your organization handle the situation? This panel will discuss preparation for security vulnerabilities to include:
Do you understand your estate?
How should you prepare to speak to the Board?
Who should you plan to work with to fight the issues that arise?

Moderator:
• Mark Weatherford, Senior VP & Chief Cybersecurity Strategist, vArmour

Panelists:
• Tony Mather, Chief Information Officer, AWE
• John Meakin, Group Chief Information Security Officer, GSK
• Stephen Pattison, VP Public Affairs, ARM Holdings plc
• Vikram Phatak, Chief Executive Officer, NSSLabs
• Mario Vuksan, Founder & Chief Executive Officer, Reversing Labs
Track 1: 3:55 PM – 4:40 PM
TBP Lecture Theatre

How CISOs Prioritize Initiatives and Measure Value in a Noisy World

Abstract: CISOs are barraged with an overload of solution providers and more innovations enter the market every day. There is a lot of overlap and the noise is difficult to filter through. What is real and what is not? Hear directly from CISOs about the most critical issues they are facing today and how they prioritize initiatives. They will discuss their tips for how they quickly evaluate new technology – and measure value – to get to the right solutions for their businesses.

Moderator:
- Christy Wyatt, President & Chief Executive Officer, Dtex Systems

Panelists:
- Luis Alvarez Satorre, Strategic Advisor, Wandera
- Robert Coles, Director, Cumberland House Consulting Limited
- Anton Karpov, Chief Information Security Officer, Yandex
- Jean-Yves Poichotte, Global Head of IT Cyber Security, Sanofi
- Naomi Springate, Director Policy, Capability & Engagement, Lloyds Banking Group Chief Security Office for the CISO

Track 2: 3:55 PM – 4:40 PM
Stevenson Lecture Theatre

Blueprints On How To Increase A Diverse Workforce And Accelerate Workskills Development

Abstract: The global workforce will need tens of thousands of additional cyber security workers over the next decade, just to meet the industry’s ‘business-as-usual’ demand forecasts. This panel will look at some of the key issues around the cyber security workforce and address: What can individuals, companies, schools, and government do to develop and produce a larger, more diverse group of cyber security professionals now and for the future?

Moderator:
- Robert Hannigan, Chair, Immersive Labs

Panelists:
- Patranjali Bhattacharya, Head of Computing & ICT, The Piggot School, Wargrave
- Rick Geritz, Chief Executive Officer, Life Journey
- Michelle Mosey, Head Cyber Learning, WYWM Cyber
- Rachel Neaman Non-Executive Member, Advisory Board, Digital Leaders
- Sarah S, NCSC Lead, CyberFirst

4:40 PM – 5:00 PM
BP Lecture Theatre

Closing Keynote
Christopher Krebs, Under Secretary, US Department of Homeland Security

5:00 PM
Closing Remarks by Summit Host
Day 2 – Wednesday, September 19, 2018

8:00 AM – 9:00 AM
Registration and Continental Breakfast

9:00 AM – 10:20 AM
BP Lecture Theatre

Welcome by Summit Host
- Rick Geritz, Chief Executive Officer & Founder, Life Journey, Chairman, CyberMaryland

9:05 AM – 9:50 AM
BP Lecture Theatre

Equifax: Lessons Learned from the Hack. Similarities and Differences Between the Home Depot & Equifax Breaches
Moderator:
- Robert Rodriguez, Chairman & Founder, SINET
Panelists:
- Jamil Farshchi, Chief Information Security Officer, Equifax
- Julia Houston, Chief Transformation Officer, Equifax

9:50 AM – 10:10 AM
BP Lecture Theatre

SINET Thinks Forward with Doug Maughan
Guest Speaker: Doug Maughan, Division Director, US Department of Homeland Security S & T

10:10 AM – 10:20 AM
BP Lecture Theatre

Cybersecurity Solutions Presentations
Presenters:
- Norman Shaw, Chief Executive Officer, ExactTrak
- Jack Chapman, Chief Technology Officer, Cybershield
- Jake Kennard, Co-Founder & Head of Technical Sales, KETS Cyber Security
TRACK 1: 10:20 AM – 11:00 AM  
**BP Lecture Theatre**

**CISO Trusted Information Sharing Models That Are Viable And Working**

**Abstract:** Building government-industry relations that will lead to better information sharing practices and enhanced protection of our respective nation’s critical infrastructures. What are the challenges and opportunities and what models are working to build trust between participating parties?

**Moderator:**
- Hans-Wilhelm Dunn, Board of Executive Directors, Vorstand

**Panelists:**
- Dr. Madeline Carr, Director, Research Institute Science of Cyber Security (RISCS)
- Chris Gibson, Director MCERT, Templar Executives
- Valerie Jenkins, Chief Information Security Officer, TSB Bank Plc
- Shaun Khalfan, Vice President Information Security, Freddie Mac

---

TRACK 2: 10:20 AM – 11:00 AM  
**Stevenson Lecture Theatre**

**Artificial Intelligence – How Can It Can Benefit Yet Also Hurt Cybersecurity in the Future**

**Abstract:** As our desire for and development of artificial intelligence continue to grow, so do the benefits, but also the challenges. This panel will discuss the complexities of AI’s future. How will it be secured, how will hackers use it, who will benefit, and will we be able to stay ahead of the adversaries?

**Moderator:**
- Ross Anderson, Professor of Security Engineering, University of Cambridge

**Panelists:**
- Robert Hercock, Chief Research Scientist, BT Security
- Sana Khareghani, Deputy Director, Head of Office of Artificial Intelligence at DCMS/BEIS
- Tim Rawlins, Director & Senior Adviser, NCC Group
- Russell Wing, Head of Information Security, London Metal Exchange
- Dr. John Zangardi, Chief Information Officer, US Department of Homeland Security

---

11:00 AM – 11:20 AM  
**Break**

---

TRACK 1: 11:20 AM – 12:00 PM  
**BP Lecture Theatre**

**Building World Class Resiliency Incident Response Programs That BODs Are Supporting**

**Abstract:** Yahoo, Equifax, and Uber: just a few of the multitude of organizations that have fallen victim to data breaches. Aspects of their responses, e.g. rolling or delayed disclosure of the breach, has also led to litigation and reputational damage in addition to significant direct economic damages — all of which hits the bottom line. This panel will discuss the elements of incident response programs, best practices, lessons learned and the role of a board of directors in its execution and oversight.
AGENDA

Moderator:
- Pamela Drew, Corporate Director, Serco

Panelists:
- Alain Desausoi, Deputy Chief Information Security Officer, Swift
- Steven Rogers, Chief Executive Officer, Centripetal Networks
- Ray Stanton, Senior VP & Group Chief Security Officer, TDC Group
- Anyck Turgeon, Global Chief Cyber-Resiliency & Security Executive, IBM Corporation
- Graham Wright, Senior Vice President Security and Cyber, Inmarsat

TRACK 2: 11:20 AM – 12:00 PM
Stevenson Lecture Theatre

Lessons Learned From Funding Entrepreneurs & Building Cyber Innovation & Accelerator Centers

Abstract: Listen to leaders who are Connecting Buyers, Builders & Investors as they build and grow their Cyber Security Centres of excellence. What type of pitches gain traction, why and which presentations do not. What attributes make for good investments and eventual successful accelerator/incubators/cluster environments.

Moderator:
- Nadia Carlsten PhD, TTP Program Manager, US Department of Homeland Security

Panelists:
- Ben Brabyn, Chief Executive, Investor, Advisor, Level 39
- Grace Cassy, Co-Founder, Cylon
- Lydia Ragoonanan, LORCA Programme Director, Plexal
- Auriol Stevens, Director, Inogesis

TRACK 1: 12:00 PM – 12:40 PM
BP Lecture Theatre

TIBER: How Regulatory Practices Are Impacting Financial Services In Europe

Abstract: Threats are real, and complacency is dangerous. Threat Intelligence-based Ethical Red Teaming (TIBER) enables European and national authorities to work with financial infrastructures and institutions to put in place a programme to test and improve their resilience against sophisticated cyber attacks.

This panel will discuss their thoughts on regulation and compliance versus threat management, measuring resilience, and what have we have learned from TIBER so far.

Moderator:
- James Chappell, Chief Technology Officer, Digital Shadows

Panelists:
- Rob Bening, Chief Information Security Officer, ING
- Diana Chan, Former Chief Executive Officer, EuropCCP
- Ramon van Ingen, TIBER Test Manager, eNederlandsche Bank
TRACK 2: 12:00 PM – 12:40 PM
Stevenson Lecture Theatre

Is Cyber Just Another Business Risk, and Therefore Best Managed by the Risk Function?
Abstract: TBA
Moderator:
• Tim Cook, Partner, Wychwood Partners
Panelists:
• David Ferbrache, Chief Technology Officer, Cyber, KPMG
• Stuart Frost, Head of Enterprise Security & Risk Management, Department for Work & Pensions
• Ramy Houssaini, Chief Cyber & Technology Risk Officer and Group Data Protection Officer, BNP Paribas
• Tim Mann, Chief Information Officer, NFU Mutual
• Paul Vincent, Director of Cyber Security, Lloyds Banking Group

12:40 PM – 1:40 PM
Lunch

Track 1: 1:40 PM – 2:25 PM
BP Lecture Theatre

What Are The Challenges In Protecting Critical Infrastructure and What Type of Solutions Are Needed?
Abstract: The security of critical infrastructure is top priority to cities, countries, and industries globally. Many different organizations are looking at the risks and challenges and trying to identify the possible solutions. But, what is the role of government? What is the role of industry? What is the role of regulation? This panel will discuss how the various groups need to collaborate while identifying what is required and prioritizing the possible security solutions.
Moderator:
• Mark Sayers, Deputy Director, National Cyber Security Strategy, Cabinet Office
Panelists:
• Mo Ahddoud, Chief Information Security Officer, SGN
• Michael Johnson, Chief Information Security Officer, Capital One
• Maureen Kaplan, Global Head of Vodafone Enterprise Security Services, Vodafone
• Ben Lindgreen, Head of Security Delivery, New Payment System Operator
TRACK 2: 1:40 PM – 2:25 PM  
Stevenson Theatre

Challenges and Opportunities of Growing a Cyber Business in the UK and Beyond, i.e USA

Abstract: This panel will share their experiences and lessons learned while trying to grow their cyber businesses in the UK and other countries globally. What has worked and what would they do differently?

Moderator:
• Brian White, Partner, DBO Partners

Panelists:
• Galina Antova, Co-Founder & Chief Business Development Officer, Claroty
• Andersen Cheng, Chief Executive Officer, Post Quantum
• Piergiacomo Ferrari, Chief Information Security Officer & Head of Operational Safeguarding, Allianz Italia
• Dr. Debbie Garside, Chief Executive Officer, GeoLang
• Dr. Rachel O’Connell, Chief Executive Officer, Trust Elevate

TRACK 1: 2:25 PM – 3:10 PM  
BP Lecture Theatre

Biggest Looming Cyber Threats on the Horizon

Abstract: What is old is new and what is new is old. How do we even begin to tackle looking out on the horizon of what is emerging? How do we stay on top of what threats need immediate attention, while continuing to monitor evolving trends that may become the next major breach? Do the threats to pay attention to differ between government and private industry? How much impact is the skills shortage having and how do we to overcome it? Our panelists will discuss their views on these and other questions around emerging cyber threats.

Moderator:
• Kate Kuehn, US Chief Executive Officer, Senseon Technologies

Panelists:
• Jacqui Chard, Deputy Director, Defence & National Security, NCSC
• Ruth Davis, Head of Commercial Strategy and Public Policy, BT Security
• Alison Dyer, Chief Information Security Officer, Urenco
• Becky Pinkard, Vice President, IT & Intelligence, Digital Shadows
TRACK 2: 2:25 PM – 3:10 PM
Stevenson Theatre

What Are the Investment Trends In Technology Today and Tomorrow? I.e. AI, Blockchain and Cybersecurity

Abstract: Blockchain, Artificial Intelligence, Cloud Security, etc. - where is the industry investing? This panel of both industry and cyber investment professionals will discuss where industry is investing their budgets, as well as what the investment community is seeing from Series A to Late Stage Funding trends.

Moderator:
• Ray Bricknell, Managing Director, Behind Every Cloud Ltd

Panelists:
• Dr Robert Griffiths, Director, Head of High Performance Computing and Cloud Services, MUFG Securities EMEA PLC
• Maria Lewis Kussmaul, Founding Partner, Head of Cybersecurity Investment Banking, AGC Partners
• Ian Merricks, Managing Partner, White Horse Capital
• Andre Pienaar, Managing Partner, c5 Capital
• Alex Van Someren, Managing Partner, Amadeus Capital

3:10 PM – 3:30 PM
Break

3:30 PM – 3:45 PM
BP Lecture Theatre

SINET Thinks Forward with Graeme Hackland

Guest Speaker: Graeme Hackland, Chief Information Officer, Williams F1 Team

Topic: Risk Tolerance in the Real-time World of Formula 1

3:45 PM – 3:55 PM
Cybersecurity Solutions Presentations

Presenters:
• Kully Johal, Chair & Co-Founder, GBRI4
• Richard Benson, Chief Executive Officer, Xanadata
• Lewis Oaten, Chief Technology Officer, Razorsecure

3:55 PM – 4:35 PM

Data is Everywhere, Strategic Approaches To Protecting Your Most Precious Jewels

Abstract: In our world of IoT, do we protect devices or the data? Our cybersecurity landscape has changed and evolved. Where is the endpoint? Which attack surfaces are most important? How do we get continuous coverage? How do we integrate all the tools we need? This panel will discuss these questions as they share ideas for protecting your data, your most precious asset.

Moderator:
• Nick Warner, Chief Revenue Officer, SentinelOne
Panelists:
- **Apolline Aigueperse**, Head of Cyber, CybelAngel
- **Hadley Beeman**, Tech and Security Expert, National Technology Adviser, DCMS
- **Nick Coleman**, Global Head Cyber Security Intelligence, IBM
- **Jay Gonzales**, Chief Information Security Officer, Samsung Semiconductor, Inc.
- **Yochana Henderson**, Head of Identity and Access Management, UK Parliament

4:35 PM – 4:50 PM
**SINET Thinks Forward with Muffy Calder**
**Guest Speaker:** Muffy Calder, Vice-Principal and Head of College of Science and Engineering, University of Glasgow

**Abstract:** Is There a Gulf Between Technical Solutions and Social/Legal/Moral Frameworks? To what extent do our technical solutions for cyber security implement current social and moral values, and legal structures? Conversely, how do our technical capabilities inform policies and social norms? Do policy makers actually know what is and isn’t possible, technically? How does all of this relate to the underpinning science and blue skies thinking? These aren’t new questions, but they continue to be hard ones and Computer Scientists should be asking them.

4:50 PM – 5:30 PM
**How is The Cyber Influence of Russia, China, Iran, & North Korea Affecting Our Geopolitical Climate?**

**Abstract:** TBA

**Moderator:**
- **Suzanne Kelly**, CEO & Publisher, The Cipher Brief

**Panelists:**
- **Ewan Lawson**, Senior Research Fellow, Military Influence, Royal United Services Institute for Defence and Security Studies
- **Saher Naumaan**, Threat Intelligence Analyst, BAE Systems
- **Veerle Nouwens**, Research Fellow, Asia Studies, Royal United Services Institute for Defence and Security Studies (RUSI)
- **Rafal Rohozinski**, Principal, SecDev Group

5:30 PM
**Closing Remarks**
**Robert D. Rodriguez**, Chairman & Founder, SINET

5:30 PM – 6:30 PM
**SINET Connects: Networking Reception - East Foyer**

SINET Mission

Advance innovation and enable global collaboration between the public and private sectors to defeat Cybersecurity threats.

ABOUT SINET

“The mission of SINET is to advance innovation and enable global collaboration between the public and private sectors to defeat Cybersecurity threats.”

SINET is a purpose driven community focused on the advancement of innovation and the enablement of global collaboration between the public and private sectors to defeat Cybersecurity threats. SINET is a “Super Connector” that executes their mission by actively bringing together innovators with executives from private industry, venture capital, investment banking, system integration, policy, legal, academia and the science communities as well as the Federal Government’s civilian, military and intelligence agencies.

COMMUNITY BUILDING

SINET—where the business of Cybersecurity takes place—builds communities of interest and trust, connects thought leaders in government and industry with builders, buyers, researchers and investors across the international security domain with the goal of promoting and advancing Cybersecurity innovation. We are passionate about our mission and strive to build a community that engenders a sense of common duty, purpose and commitment to protect our critical infrastructure and help to preserve economic stability.

Join our community and participate in our mutually beneficial, trust-based approach that connects the ecosystem of the entrepreneur, increases business opportunities and advances Cybersecurity innovation.

Join the SINET community at www.security-innovation.org/community.htm

MEMBERSHIP

The SINET Showcase is just one of the many resources available to the SINET community. By becoming a member, you will gain access to additional benefits and discounted services that can take your company to the next level. Many of your peers have already discovered that SINET is the Cybersecurity “super connector” that enables them to exchange knowledge, learn from industry experts, advance innovation, and build networks with investors, entrepreneurs, government agencies, military, corporate enterprises and more.

Together, we can make a difference.

Become a SINET member and help contribute to our mission of advancing the business of Cyber.
